

COMMON SCIENCE “-OLOGIES”

anthropology	humans	audiology	hearing
archaeology	past cultures	cardiology	heart
biology	life	cytology	cells
botany	plants	dermatology	skin
chronology	order of time	gastrology	stomach
climatology	climate	hematology	blood
cosmology	cosmos	immunology	immune system
ecology	environment	kinesiology	human movement
geology	Earth	neurology	nerves
genealogy	families	oncology	cancer
hydrology	water	ophthalmology	eyes
lexicology	words	osteology	bones
meteorology	weather	pathology	illness
mythology	myths	psychology	mind
paleontology	fossils	pulmonology	lungs
seismology	earthquakes	somnology	sleep
sociology	society	arachnology	spiders
toxicology	poisons	cetology	marine mammals
zoology	animals	entomology	insects
		herpetology	reptiles / amphibians
		ichthyology	fish
		malacology	mollusks*
		mammalogy	mammals
		ornithology	birds
		primatology	primates
		protozoology	protozoa

**snails, slugs, octopus, clams,
and all animals that live in water with shells*
